

Boston's The Gourmet Pizza

Vancouver,
Washington

The two locations for Boston's The Gourmet Pizza each included buildings with 5,650 square feet of themed dining for 200 guests. Overall site areas were about 46,000 square feet for each of the sites. HDJ provided land use permitting, civil engineering for the site and landscape architectural services.

Landscape Architecture included irrigation system design, low maintenance plantings, and at the Orchards location, a water feature which provided diner a delightful stroll toward the main

entrance.

Civil Engineering services provided by HDJ included grading and parking lot design, utility design and stormwater system analysis and design.
