

Cascade 16 Cinemas

Vancouver,
Washington

Cascade 16 Cinemas is a 62,700-square foot building with 16 movie screens in Vancouver, Washington. The Cinema site area is 10.95 acres. HDJ provided full civil site and utility design engineering for this project. The project included a half-mile of public roadway improvements along the site area, which required signing and striping.

HDJ also prepared construction ready plans and specifications for this project.
